

SMS Portal 2018

Logging into SMS Panel

How to open the SMS Panel ?

Please open <http://msg.medialab.in> in your web browser. You can also open the panel in your smartphone browser.

Login with your username and password. You can use the password reminder option in case you have forgotten the password. You must have your mobile number / email ID updated in the records to retrieve the password.

You will get an Account Expired message if your validity has expired. Please [Contact Medialab](#) to get a provisional or permanent extension.

If everything is fine, you will be logged into the SMS Panel. You can proceed to [sending messages](#).

Unique solution ID: #1026
