### Feature of checker panel

The duty of a checker is to check the marks entered and lock them from further editing by the subject teachers.

Once the checker logs into the panel, then they are displayed the list of classes assigned to them. There they can see respective

Entry Status & Mark Slips

and

#### **Entry status and markslip-**

After clicking the button, the checker will see a list of subjects and exams name for that respective class. The checker will see

button and click it.
