### Subject Teacher Practicals - Selecting Active Items

In Practical Reporting System, the portal contains all the projects, practicals and activities prescribed by CBSE. The Subject Teacher should first select the one that are applicable in his/her KV for a particluar class and subject.

If multiple teachers are teaching same subject in different sections, then all of them can update the list simultaneously. However, an item cannot be removed from the list if the system has been updated with record of any student from any section having completed that practical.

# To select the Active items, the subject Teacher should click the Practicals button in the Classes & Subjects Page

In the next page, he should select applicable items.

# Subject Teacher

#### Please select items applicable for Class 11 Chemistry The selection will be applicable for all sections of class 11

SI.	PracticalType	Select	Done By	ShortCode	Title	
1	Practical	<	0	anionCaton	Determination anion and cation	Determination of one anion and one Zn2+, Co2+ , Ca2+, Sr2+, Ba2+, Mg2 Br-, I-, PO4 3- , , CH3COO- (Note: Ins
2	Practical	✓,	0	BasicLab	Basic Laboratory Techniques	1. Cutting glass tube and glass rod 2.
3	Practical	<ul> <li>.</li> </ul>	0	changNconc	shift in equilibrium	Study the shift in equilibrium betwee of the ions.
4	Practical		0	Char&pure	Characterization and Purification	1. Determination of melting point of compound. 3. Crystallization of impu Acid.
5	Practical		0	increDecre	shift in equilibrium between ions	Study the shift in equilibrium betwee concentration of either of the ions.
6	Practical		0	organicCom	Detection of organic compounds	Detection of -Nitrogen, Sulphur, Chlc

### Click "Update Selection" button at the bottom of the page.

### This page can also be reached from the page showing list of active items
